Enterprise Support Policy

This document is restricted to support leads.

Escalation

Enterprise incidents with customer impact should be escalated to the support lead within 30 minutes.

If a customer has more than three open priority cases or an unresolved case older than 14 days, the account should be marked as elevated risk for the weekly support review.

Response Targets

Priority 1 cases require an initial response within 15 minutes.
Priority 2 cases require an initial response within 2 hours.
Priority 3 cases require an initial response within 1 business day.
